ANNOUNCEMENT AND CALL FOR PAPERS

IIIrd SYMPOSIUM ON OPERATIONS RESEARCH

6–8 September 1978, University of Mannheim, (WH), Germany

The symposium will give theoretical and practical OR specialists an opportunity to discuss problems and results of the research formally as well as informally.

Topics of the Symposium

Linear and nonlinear programming — Dynamic programming — Stochastic optimization — Control theory — Integer programming — Graphs, hypergraphs, matroids — Stochastic processes — Queuing theory — Simulation — Statistical quality control — Econometrics — Decision and utility theory — Production theory — Inventory theory — Renewal theory — Reliability — Location and allocation models — Financial planning — Environmental systems — Game theory — Mathematical economics and equilibrium theory — Information theory — Applications in management science — Applications in biomathematics — Applications in computer science.

Suggestions for further topics are welcome.

Contributed Papers

Twenty minute talks on the papers are scheduled. The advance publication of a volume containing abstracts is planned. The deadline for submission of lecture abstracts is May 15, 1978. All accepted papers will be published in a proceedings volume.
